

# Neighbour Response

**Case Ref - NMA/2020/0045**

## Details

David Howell

13 Osborn Road  
Farnham  
Surey  
GU9 9QT

As a resident of Farnham i will to strongly object to this application to vary Condition 25 of application WA/2016/0268.

The trees in question are an essential part of the character of the existing gardens surrounding the Grade II Listed Building and proposed development.

The condition should not be removed thereby allowing the felling or the increased likelihood of felling these trees.

Protection must be left in place, reinforced if necessary and the works reconsidered or methods of works adjusted to ensure that no damage comes to these trees. If need be a full height scaffolding surrounding the trees should be erected.

No financial reason should be considered.

i confirm i strongly object to any change in the condition which could result in the loss of these trees or any damage to them.

The Council should impose unlimited fines for any damage whatsoever however caused on the developer.
